to increase land values & sustainable profits

Storage and Handling

- While this product is organic, please wear protective gloves and face shield.
- Handle with care.
- Store away from direct sunlight, and at temperatures less than 30°C to protect the living brew.
- Do not store for longer than the product's shelf life of 9-12 months.

Mixing Instructions:

Before dilution, agitate container contents well.

1. Half fill the tank with non-chlorinated water.
2. Add compatible products as required under agitation.
3. Finally add MicroLife Aloe Min with water, to remainder of tank, while under agitation.

DO NOT USE WETTERS OR SPRAY OILS

Added Benefits of Microlife DRYDOWN

- **RAPID DEHYDRATION OF FOLAGE**
This bio-activator shortens the process from cutting to baling or silage containing, protecting your hay against sudden weather changes.
- **DELIVERING TOTAL RANGE OF MICROMINERALS**
Stock hay, forage and fodders contains a full range of 90 plus minerals, a great adjunct to enhance the MicroLife foliar range
- **RAPID REGROWTH OF CUT PASTURES**
Faster recovery of pasture/lucerne because of added micro nutrients needed for pasture regeneration

CAUTION DO NOT SWALLOW, KEEP AWAY FROM EYES
